## **DETAILED ACTION**

1. This action is in responsive to the amendment filed 09/18/2007.

Claims 1-40 are pending in this application.

The Examiner would like to thank Applicant for the amendment responsive to the previous Office Action. However, after further review of the instant claims, an Election/Restrictions requirement must be made as follows:

### **Election/Restrictions**

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-23 drawn to creating and processing a document, classified in class 715, subclass 513;
  - II. Claims 24-28 drawn to preparing a document for visual output, classified in class 715, subclass 526; and
  - III. Claims 29-37 drawn to dividing a document into units which are sized according to a display or print medium, classified in class 715, subclass 525.

The inventions are distinct from each other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for one group is not required for the other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
